1. On 11 November 1982 the undersigned, accompanied by [redacted] 25X1
[redacted] appeared before the PFIAB at their request to present a report on 25X1
Community activities in implementation of the NSSD-2 Study, "Capabilities
Against the Hostile Intelligence Threat 1983-1988." My remarks were preceded
by a short statement by Ken deGraffenreid of the NSC Staff reflecting the NSC
perception and importance attached to CI activities. Following my
presentation the PFIAB was briefed by Ed O'Malley on IG/CI activities, by
General Stilwell on IG/CM activities, and by John Stein and [redacted] on CIA 25X1
CI activities.

2. My presentation summarized the status of NSSD-2 Study implementation,
discussion of some of the specific study actions under way, and discussion of
certain other issues previously identified by the PFIAB Staff. My outline and
notes are attached.

3. The presentation was well-received, but generated only limited
discussion from the members because the Chairman wished to keep to the
schedule. I have no information on the content of the subsequent
presentations.
